

Baltic Marine Environment Protection Commission

Intersessional meeting of the joint HELCOM/Baltic Earth Expert
Network on Climate Change
Online, 30 November 2020

EN CLIME 6C-2020

Document title	Provisional Annotated Agenda
Code	1-1
Category	DEC
Agenda Item	1 – Adoption of the Agenda
Submission date	26.11.2020
Submitted by	Secretariat

The intersessional Meeting of the joint HELCOM/Baltic Earth Network on Climate Change (EN CLIME) will be held online on 30 November 2020 at 14-17 EET.

The Meeting will be chaired by co-Chair Mr. Jonas Pålsson.

The aim of the Meeting is to consider the peer review process and the contents of the Baltic Sea Climate Change Fact Sheet final report.

Agenda Item 1 Adoption of the Agenda

The Meeting is invited to adopt the Agenda.

Agenda Item 2 Structure and layout of the final report

The Meeting participants are invited to scrutinize the texts on map view and parameter summaries (document 1) before the Meeting and the Meeting is invited to agree on their finalization (e.g. if revisions are needed based on peer review comments, submission of missing texts, timetable for finalization).

The Meeting participants are invited to review the revised text on Introduction (document 2) and the Meeting is invited to agree on its finalization.

The Meeting is invited to consider the new suggestion on icons and the Sankey diagram (document 4 *to be submitted*) showing connections between the different parameters, as described in document 3.

Agenda Item 3 Peer review process

The Meeting is invited to recall that EN CLIME 6B-2020 agreed on 27 November as the deadline for revising the parameter texts based on peer review comments and emphasised that the intention is to avoid the need for a second per review round and suggested rather to contact additional colleagues in case some key messages need further work.

The Lead Authors are invited to shortly present the status of their respective key messages and the Meeting is invited to consider the need for further work before the key messages can be considered as ready for submission to review by HELCOM State and Conservation WG.

The Meeting is invited to agree on the harmonization of text under the Policy relevance section.

Agenda Item 4 Future work

The Meeting is invited to recall that the next meeting of the network (EN CLIME 7-2021) will be held on 28 January 2021 at 10-17 EET.

Agenda Item 5 Any other business

The Meeting is invited to note the outcome of investigations on the level of general comprehension of the word 'irradiance'.

The Meeting is invited to discuss any other business of relevance to the network.

Agenda Item 6 Outcome of the Meeting

Draft Outcome of the Meeting will be prepared by the Secretariat in consultation with the Co-Chairs and approved via correspondence.
