

Document title	Links between parameters
Code	4-3-Rev.1
Category	CMNT
Agenda Item	4 – Layout and content for the final report
Submission date	15.1.2021
Submitted by	Secretariat

Background

The attached [Excel file](#) (4-3-Att.1) contains lists of linked parameters for the EN CLIME regional parameters.

Arrow to the right “->” means that the linked parameter has an effect on the parameter in question.

Arrow to the left “<-” means that the parameter in question has an effect on the linked parameter.

The links will be depicted under the key messages of the final report, as well as in the Sankey diagram showing connections between all the parameters.

Changes made in the Excel attachment, compared to document 4-3, contain comments and edits suggested/made by Jens Olsson, Örjan Östman and Bärbel Mueller-Karulis.

Action requested

The Lead Authors are invited to check that a) you agree with the list of linked parameters b) all references back are provided.

The Meeting is invited to agree on the lists of linked parameters to be included in the final report.
