

Document title	Updated draft analysis of reported data 2016
Code	3-1
Category	DEC
Agenda Item	3 – Draft analysis of reported data 2016
Submission date	14.02.2019
Submitted by	The Secretariat
Reference	

Background

Document includes a draft analysis of reported data on handling of dredged material at sea in 2016 in accordance with the methodological document agreed by PRESSURE 5-2017 ([Outcome](#), para 5.9) and developed based on the comments by PRESSURE 8-2018 ([Outcome](#), para 5.10). The assessment is further developed taking into account comments [EN DREDS 5-2018](#) and [EN DREDS 6-2018](#).

The latest changes are done according to the comments by EN DREDS 6-2018 and includes the Meetings decision to change the time period from 2006-2016 to 2013-2016. The document further will be forwarded to PRESSURE 10-2019 for endorsement as format for HELCOM Environmental Fact Sheets. Document [3-1-Att. Draft analysis of reported data 2016](#) includes the actual analysis document.

Action requested

The Meeting is invited to comment on the draft analysis and agree on the suggested format to be utilized for HELCOM Environmental Fact Sheets.

The Meeting is also invited to discuss further development of the analytical document, particularly, in the light of current HELCOM work on seabed damage and disturbance.
