

Document title	Reporting 2018 data
Code	4-1
Category	INF
Agenda Item	4 – Reporting of 2018 data
Submission date	29.08.2019
Submitted by	HELCOM Secretariat
Reference	

Background

HELCOM Recommendation 36/2 recommends that the Contracting Parties follow the HELCOM Guidelines for Management of Dredged Material at Sea, and that the Contracting Parties report on the national data on management of dredged material according to the Reporting Format of the HELCOM Guidelines.

Next round of data reporting on depositing of dredged material starts in the autumn, with deadline on 1 October 2019. As stated in the document 3-1, there are two aspects of the consolidated reporting to LC/LP which are not mandatorily reported by HELCOM Contracting Parties:

- number of permits issued in the reported year;
- information on environmental monitoring on the depositing sites

Action requested

The Meeting is invited to discuss the upcoming reporting in the light of requirements for the consolidated report to LC/LP. Particularly about the national practices related to permitting and monitoring activities.

The Meeting is invited to indicate any potential delays or unclarities of the reporting procedures.
