

# Outcomes of GEAR 20-2019 relevant to EN ESA

# ESA Roadmap

- Some edits have been made but outdated sections still exist
- "revision and update of the ESA roadmap into a more structured and detailed document, dividing what approach HELCOM takes for the assessment of measures and state of the environment, and what could be/will be done for the valuation etc. The review and update of the roadmap could function as an intermediate step before proposing concrete wording for the BSAP update."
- Opportunity to develop and propose additional socio-economic indicators

# HOLAS III

- Keep HOLAS III suggestions practical and achievable (consider the proposed HOLAS timeline)
- Data flows vs Data requests
- If possible refer to other work strands (e.g. BSAP update)
