

Document title	State of the Baltic Sea report and updating
Code	10-1
Category	INF
Agenda Item	8 – State of the Baltic Sea report and updating
Submission date	11.10.2017
Submitted by	Secretariat
Reference	State and Conservation 7-2017 3J-8

Background

By June 2018, the 'State of the Baltic Sea' report produced within HOLAS II will be further updated and a finalized version will be published. In that process a number of revisions and improvements are planned.

The document provided in **document Att 10-1** provides an overview of the proposed update plan and is a provisional document undergoing discussion at State and Conservation shortly. This provisional document is provided to the group here by way of informing the EN-HZ members of provisional timelines for the process.

Action required

The Meeting is invited to:

- take note of the provisional information in this document and consider the implications for the group.
- take note of the fact that this document is a provisional document shortly to be discussed at State and Conservation and thus its final content will be reflected in the outcome of that meeting.
