

Document title	Current status of reporting of hazardous substances data
Code	4-2
Category	INF
Agenda Item	4 – Current status of reporting of hazardous substances data
Submission date	11.10.2017
Submitted by	Secretariat
Reference	

Background

The attached document contains a report of the current status of hazardous substances data reported to the HELCOM COMBINE database. The current document, excluding Table 4 and the comments on problems reported for that table, has been reported to State and Conservation 7-2017.

The update of Table 4 (purple shades) with the status after the reporting of 2016 and its submission to State and Conservation will take place directly after this meeting of EN-HZ. For this to take place it requires the final extraction table to be confirmed so that ICES can assist the Secretariat in completing the relevant information.

Action required

The Meeting is invited to:

- take note of the information provided and inform of any vital concerns or aspects that should be included in the document.
