

Document title	Baltic Oiled Wildlife Response Network Meeting
Code	4-2
Category	INF
Agenda Item	4 – Training and information activities to support work of EWG OWR
Submission date	24.1.2017
Submitted by	Germany
Reference	

Background

Some tasks and possibilities of the Baltic Oiled Wildlife Response Network Meeting that should be organized by the EWG OWR for 2017 are proposed.

It is proposed that the Baltic Oiled Wildlife Response Network Meeting could include some active training elements for Oiled Wildlife Response like staff management training combined with equipment training (both indoor/outdoor). If this Network meeting would be hosted by Germany (work in process) e.g. the local pollution response agency (to be confirmed) together with the central Command for Maritime Emergencies could help to set up this kind of exercises. If the Network Meeting could not be hosted by Germany the organizing committee of the meeting can be assisted for this aspects of training.

Action requested

The Meeting is invited to discuss the suggested scope of the Baltic Oiled Wildlife Response Network Meeting.
