

Document title	Available on-shore response equipment
Code	4-1
Category	CMNT
Agenda Item	4 - Revision of the HELCOM Response Manual Volume III
Submission date	29.1.2016
Submitted by	Secretariat
Reference	Outcome of EWG SHORE 11-2015, paragraphs 4.4-4.5

Background

EWG SHORE 11-2015 recognized that available resources need to be listed for preparedness, operation and planning of exercises and decided to list the shore equipment with prices, when applicable, and to include the information in the HELCOM Response Manual.

No information was received by the Secretariat by the deadline 15 January 2016 and a reminder was circulated by the Secretariat to the Contracting Parties on 19 January 2016, and on 27 January 2016.

The attached document contains a table provided by Sweden on available recourses prior to EWG SHORE 12-2016.

Action requested

The Meeting is invited to take note of the information.

Contracting Parties which have not yet reported on available recourses are invited to inform on the timetable for providing such information.

Sweden
