

Document title	Report on HELCOM BALEX DELTA Exercises 2004-2014
Code	5-1
Category	INF
Agenda Item	5 – Other tasks of EWG SHORE
Submission date	18.1.2016
Submitted by	Sweden
Reference	

Background

Sweden is the Lead Country of Task 5, according to the [Terms of Reference](#) for EWG OWR, and responsible for developing the exercise framework on response on pollution on shore. The aim of this survey is primarily to identify those conclusions that may be of importance to the exercise framework. Furthermore, aspects of potential interest to the future development of the exercise framework for exercises at sea should also be noted.

Another aim of the report is to provide relevant background information to preparation for Balex Delta 2018 exercise in Sweden, which will be a multilateral cooperation exercise on shore and at sea.

Action requested

The Meeting is invited to

- take part of the presentation to be made by the consultant Pär Eriksson, FOI
- take part of the [report](#) (PDF) and printed handouts to be distributed at the meeting.
