## Background

The Secretariat circulated on 7 March 2017 the request for reporting on the national implementation of HELCOM Recommendation 32-33/1 on conservation of Baltic salmon (*Salmo salar*) and sea trout (*Salmo trutta*) populations by the restoration of their river habitats and management of river fisheries (original deadline for submitting information was 14 April 2017).

The Secretariat has received information from Denmark, Estonia, Finland, Poland and Sweden, which have been incorporated in the revised compilation (c.f. Attachment).

*This revised document contains input from Sweden, that was not included in the original document submitted on 28.4.2017.*

## Action requested

The Meeting is invited to consider the compilation of reporting on the national implementation of HELCOM Recommendation 32-33/1 with a view of publishing the material.
