Background

The HELCOM indicator workshop (HELCOM Indicator WS 1-2019 on 14-15 May 2019 in Berlin) takes place to initiate the future work on HELCOM indicators, as endorsed by HOD 54-2018 ([Outcomes paragraph 4.25](#), [document 4-5](#)). This first workshop will be followed by a second workshop (autumn 2019), which will finalize the planning for the HELCOM indicator development.

The workshop documents are now available at the [HELCOM Indicator WS 1-2019 meeting site](#) and a 'Purpose' document is provided to guide the aims of the workshop. A number of other relevant supporting documents are also provided to facilitate discussions and priority setting at the workshop, as set out in Annex 1 of the purpose document.

Members of the Working Group, and registered participants of this Working Group Meeting should have access to the [document library for the indicator workshop](#).
