

Document title	Additional information on indicators
Code	5 - 8
Category	CMNT
Agenda Item	5 – Activities of relevant HELCOM projects or processes
Submission date	5.11.2019
Submitted by	Secretariat
Reference	

Background

The information gathered so far in the Future work on HELCOM Indicators has been compiled into a simplified draft summary overview table to offer possible support to discussions in the meeting. In general the table utilizes the policy matching table as its basis, identifies the areas of preliminary policy priority from the First HELCOM Indicator Workshop and then complements this with information extracted from the workplans developed in the Second HELCOM Indicator Workshop. A simple explanatory key is provided on the Read me sheet within the workbook.

Where possible the indicators likely available for HOALS III and the form of those indicators (e.g. fully operational, initial assessments, or supporting information) is also provided. Corresponding information, where available, related to the resource needs for the development work to achieve the planned aim by HOLAS III (and in some cases beyond) are also provided, as is a link to the more detailed Workplans developed during the Second HELCOM Indicator Workshop.

The information presented represents a significant simplification of the overall details provided within the Workplans, but aims to offer a broad overview of the indicators as a whole.

Action requested

The Meeting is invited to use the template to support discussion, as needed.
