

Addendum to the Notes from the HELCOM BSAP UP workshop on biodiversity, including extraction of species and spatial measures, for the consideration of proposed new actions (HELCOM BSAP UP WS-BIO 2020)

1.1 The HELCOM BSAP UP WS-BIO 2020, organized on 31 August -2 September, did not finalize the work on all proposed new measures in the breakout group 3) Restoration of habitats, and agreed to continue the work in an intersessional session of the breakout group, with the intention of finalising the assessment of effectiveness prior to the STATE&CONSERVATION 13-2020 Meeting (Notes from BSAP UP WS-BIO 2020, paragraph 4.16).

1.2 The intersessional Meeting of the breakout group 3) Restoration of habitats was held online on 21 September 2020. The list of participants of the session is contained in the **Annex to the Addendum**.

1.3 The Meeting discussed the remaining proposals for new actions related to restoration of habitats and evaluated them based on the criteria as included in **Annex 4-Rev.1** to the Notes from BSAP UP WS-BIO 2020 (synopses 13-22).

1.4 The Meeting highlighted the need for more coordination between different measures related to habitat restoration and the need for prioritization of method development for different habitats and noted that there is work ongoing regarding this in Sweden. The Meeting noted that further work regarding habitat restoration under the updated BSAP could be linked to Recommendation 40/1.
