## Taxi

The cheapest is to book a taxi over the phone when you arrive (there is free wi-fi in airport), which you can do through any of the companies listed here. The average fare is around €20-30.

You can use the official airport taxi service. To do this, you should head for the booths marked Taxi Pulkovo in the arrivals lounge. There are rarely queues, and fares are only slightly higher (about €30-40). We strongly recommend that you don't try to negotiate fares with the drivers touting around the baggage reclaim area and on the street.
