

HELCOM Response Exercise Plan (HREP) and the way forward

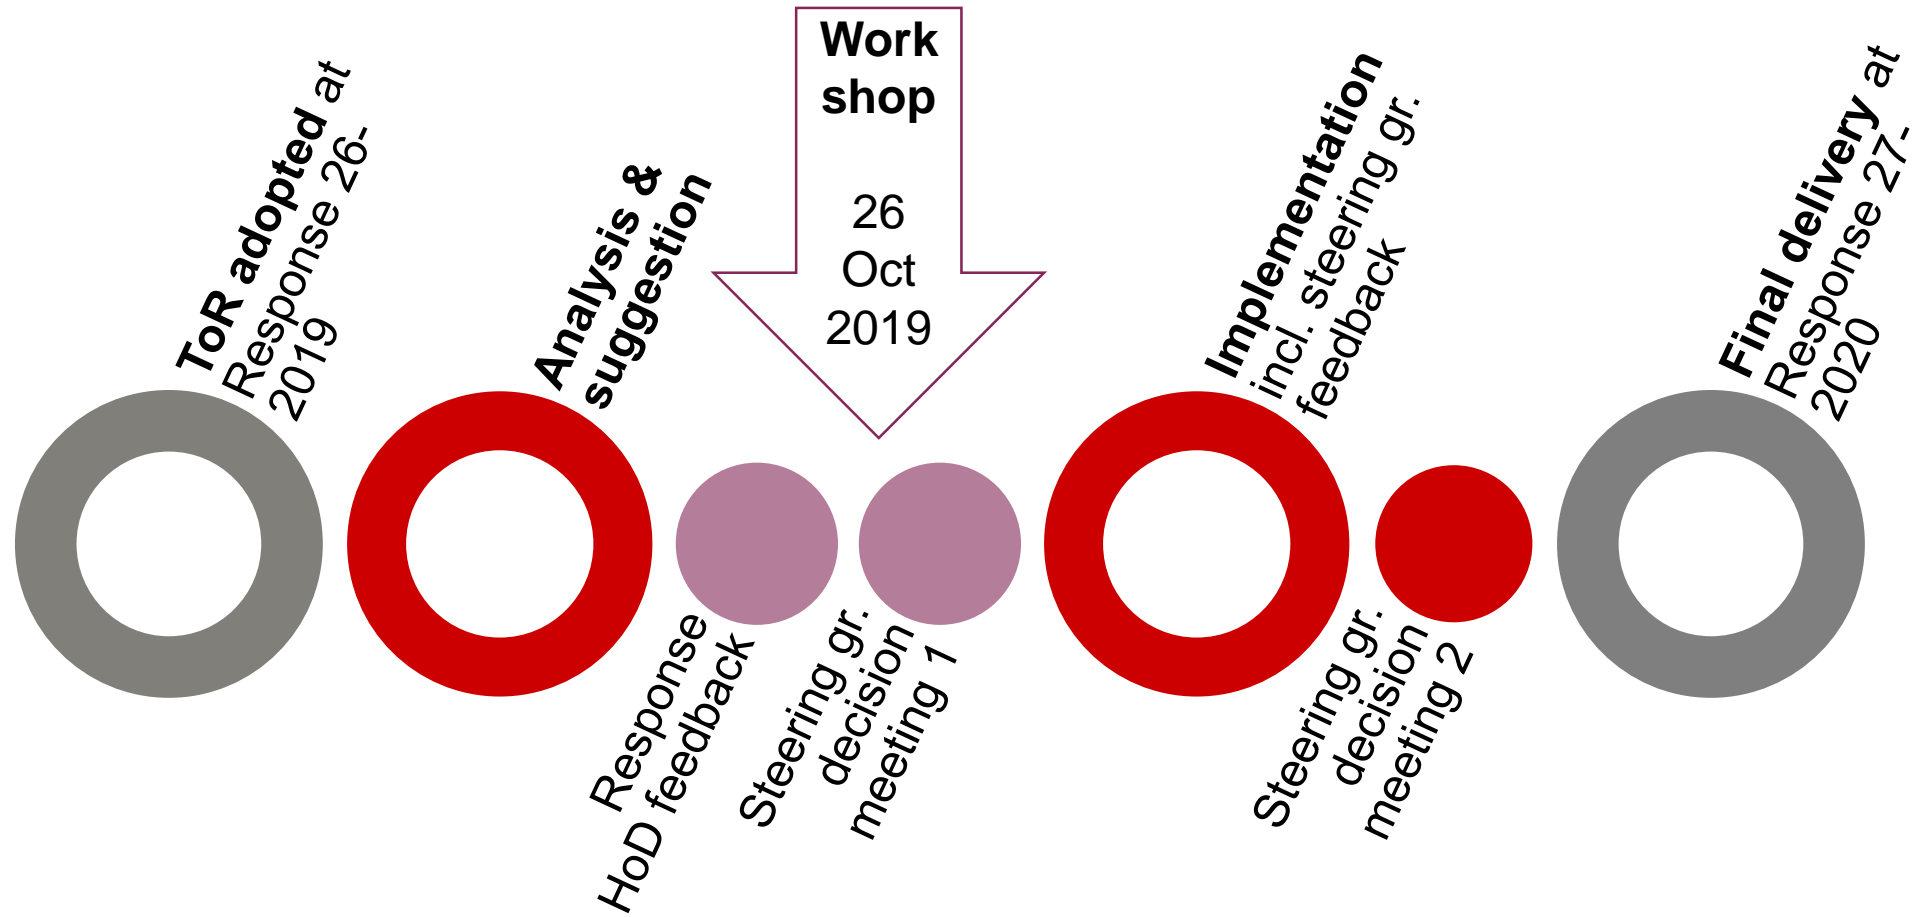

HELCOM Response 27-2020

26 March 2020

Vejle, Denmark

Sonja Dobo

Overall project plan

What is still left to do?

- Strategic Development Priorities
 - Exercises to be used as tools for development
 - Help setting relevant aims for Balex Delta exercises
 - A more strategic approach for exercises and the overall development
- Finalize the HELCOM Response Exercise Plan (HREP)
 - A new planning process for Balex Delta
- An online tool for planning, conducting and evaluation of exercises and overall response development.

The way forward – Another project

- Benefits of a project
 - Temporary development intervention
 - ToR with clear deliverables and timeline
 - Clear roles and expectations of participants
- Work between meetings proved challenging
 - Own working time is a limiting factor
 - Need for external support
- **Decision point:** does the meeting agree to proceed with another project? If yes, drafting group to be established

Project details

- Possible project tasks
 1. Revise chapter 8. *Framework for exercises* in the Response Manual
 2. “Strategic development priorities” (possibly a new action in the BSAP)
 3. Finalise the HREP document.
 4. Exercise Evaluation Team?
- Timeline for the project?
- Financing of project support/analyst?
- Extend the EET group as project group? Or form a new group?

After the project...

- New tasks to be incorporated in the HELCOM Response
 - "Strategic Development Priorities"
 - Revision of the HREP
