Note that this document was submitted after the established deadline. It will be decided by the Meeting whether the document can be discussed or is postponed to the next meeting.

Background

The revised [HELCOM Response Manual](#), adopted by HELCOM 42-2021, contains a link to a list on the [HELCOM website](#) with information on the Contracting Parties' response vessels and equipment in the HELCOM area extracted from the Common Emergency Communication and Information System Marine Pollution (CECIS MP) in 2020. Information on Russian response vessels and equipment was provided to the Secretariat and added to the list.

The separate Excel attachment to this document contains an extract from CECIS MP as of September 2021. Information on Russian response vessels and equipment is extracted from the list available on the HELCOM website.

Action requested

Contracting Parties are invited to ensure that all the country-specific information set out in the separate Excel attached is correct and up to date.

The Meeting is invited to discuss whether the list should be updated annually or less often.
