

Document title	Template for compiling information on national developments regarding response at sea, on shore and for oiled wildlife response
Code	5-1
Category	CMNT
Agenda Item	5 - National preparedness at sea and on shore
Submission date	7.9.2021
Submitted by	Secretariat
Reference	

Background

This document contains in attachment 1 (separate Word file) an empty template for reporting information on national developments regarding response at sea, on shore and for oiled wildlife response as agreed by RESPONSE 22-2016 (paragraph 5.3) and RESPONSE 25-2018 (paragraph 6.1-6.3).

The other attachments to this document (separate Word files) are already filled in reports on national developments from previous Response Working Group meetings, which are to be updated. Attachment 4 on German developments was updated in September 2021. Contracting Parties who have not reported to previous meetings are invited to fill in the reporting template for RESPONSE 29-2021.

A document compiling the updated national reports will be submitted to RESPONSE 29-2021 after the deadline 21 September 2021.

Action requested

The Contacting Parties are invited to fill in the reporting template or update the existing reporting and send it to the Secretariat (markus.helavuori@helcom.fi) prior to the meeting, but at the latest **by 21 September 2021**.

The Meeting is invited to:

- take note of the information on national development reported by the countries; and
- discuss further use of the template, as appropriate.
