## **1. Adoption of Agenda**

## **2. Consideration of marine eutrophication in the possible revision of the Gothenburg Protocol**

With reference to the discussion at HELCOM [PRESSURE 14-2021](#) (onward from para 9.5) on the proposal by Germany to consider marine eutrophication in the review and possible revision of the Gothenburg Protocol ([document 9-3](#) PRESSURE 14-221) and the meetings decision on tasking RedCore DG and PLC IG to look in the issues at their earliest convenience, RedCore DG 32-2021 are invited to consider, discuss, follow-up on the following issues:

- The questions and issues raise in document 9-3 PRESSURE 14-2021
- How to give (and which) messages/communication with ad hoc group on marine protection (AMP) under the working group on effects of CLRTAP regarding consideration of marine eutrophication in the review and possible revision of the Gothenburg protocol
- How can “airborne maximum allowable inputs” for the Baltic Sea basins be established

Germany will present the topic in the beginning of the meeting. The document “9-3 Considering marine eutrophication in the review of the Gothenburg Protocol”, provides background information for the topic and the document can be accessed [here](#), at the PRESSURE 14-2021 Meeting site.

## **3. Any other business**

## **4. Future work**

Next steps from Redcore DG (and PLC IG)
