

Baltic Marine Environment Protection Commission

Progress on the update of the 'State of the Baltic Sea' report

Work still planned

General

- Approval of the HOLAS II 9-2018 recommendation to change the name of the supplementary reports to thematic assessments.
- Further refining some of the figures presented in the report.
- Professional language check of the summary report.
- Professional layout of the summary and thematic assessment reports, including figures, in line with the new design theme being developed for HELCOM.
- State of the Baltic Sea overviews.

Indicators

- endorsement of the updated indicator report text by State and Conservation WG, and publication of the reports and data together with the publication of the summary and thematic assessment reports.

BSPI/BSII

- Updating figures based on final corrections.
- Complementary information to be added to metadata records, as needed and preparing for publication of the data layers.
